## Brief History of the Library

A library is a collection of items like books, journals and videos that can be easily accessed for actual use as opposed to just being on show. To consistently meet the needs of the user, it oversees housing current information. A library is a place where people can go to access physical (hard copies of documents) or digital (soft copies) items. Libraries can also be virtual spaces. In addition to access to information, music, and other content stored in bibliographic databases, a library's collection may also include printed materials and other tangible resources in a variety of forms, such as DVD, CD, and Cassette. A library is a collection of items like books or video that can be easily accessed for actual use as opposed to just being on show. The Institute's Central Library is located in a crucial area of the campus. Research and instructional processes are supported by it. It gives instructors, staff, and students (UG & PG) a location to learn with 150 seats, the library has a roomy built-up space of 420 square meters. A qualified librarian, Library assistants, and support staff make up the library's workforce. Every working day from 9:00 AM to 6:00 PM, the library is open. The library has 38509 volumes, including 7324 book titles and about 736 back issues of periodicals in the Science and Technologies.

---

The Central Library, which opened its doors in June 2005, is an important play in the gathering, organizing, and sharing of knowledge and is a proud partner in the institute's march towards its mission. The library's focus is still on raising service and facility quality, increasing customer happiness, the Central Library's main goals are to make material easily accessible to its users in a networked environment and to establish itself as a leading learning resource center for engineering, science, and technology, as well as allied fields.

## **SOUL 2.0 ( ILMS ):**

Software for University Libraries (SOUL) is a state-of-the-art integrated library management software designed and developed by the INFLIBNET Centre based on requirements of college and university libraries. It is user-friendly software developed to work under client-server environment. The software is compliant to international standards for bibliographic formats, networking and circulation protocols. After a comprehensive study, discussions and deliberations with the senior library professionals of the country, the software was designed to automate all housekeeping operations in a library. The software is suitable not only for the academic libraries, but also for all types and sizes of libraries, even school libraries. The first version of software i.e. SOUL 1.0 was released during CALIBER 2000. The database of the SOUL 1.0 was designed on MS-SQL and was compatible with MS SQL Server 7.0 or higher. The latest version of the software i.e. SOUL 2.0 has been designed for latest versions of MSSQL and MySQL (or any other popular RDBMS). SOUL 2.0 is compliant to international standards such as MARC 21 bibliographic format, Unicode-based Universal Character Sets for multilingual bibliographic records and NCIP 2.0/ SIP2 based protocols for electronic surveillance and control.

The Central Library's main goals are to make material easily accessible to its users in a networked environment and to establish itself as a leading learning resource center for engineering, science, and technology, as well as allied fields. The library is automated with Software for University Library ( SOUL 2.0 Version ) software for easy transaction and circulation of books through Bar-coded ID cards. The library has 15 Computers for Students to access with a speed of 50 Mbps internet facility, a printer and 1 Xerox machines. User can access the online information about the availability of books OPAC (Online Public Access Catalogue) features that are active in library information management reflect databases to users around the world using internet facilities. Users can search a document, confirm its availability, reserve the book and even issue/return the material, etc. With the growth of computer networks, users are able to access the library OPAC resources can be accessed through.

---

## **CIRCULATION:**

This module takes care of all possible functions of circulation. Sufficient care has been taken in designing this module starting from membership management, maintenance and status of library items, transaction, ILL, overdue charges, renewals & reminders, search status and report generation according to the status of the items. The circulation module is fully compliant with the NISO Circulation and Interchange Protocol (NCIP) version 2.0 as well as SIP2 for electronic surveillance and RFID based transaction of the items. Major functions of the circulation modules are:

1. Membership;
2. Transaction;
3. Inter-library loan;
4. Overdue charges;
5. Reminder;
6. Search status;
7. Maintenance of the items such as binding, lost, replace,
8. Missing, withdrawal, etc.; and
9. Report generation based on the various requirements

## **ON-LINE PUBLIC ACCESS CATALOGUE (OPAC):**

One of the major attractions of SOUL is its robust On-line Public Access Catalogue (OPAC). The OPAC has simple and advanced search facility with the minimum information for each item including author, title, corporate body, conference name, subject headings, keywords, class number, series name, accession number or combination of any of two or more information regarding the item. Major functions provided in the OPAC module are:

1. Simple Search
2. Boolean Search
3. Advanced Boolean Search
4. Displaying and downloading of records in MS Excel, PDF or
5. MARCXML

## SERIAL CONTROL:

Managing serials is the most complicated job for a library. The module keeps track of serials in the library effectively and efficiently. The serial control module is developed based on the KARDEX system and the following functions built into it:

1. Suggestions;
2. Master databases;
3. Subscriptions;
4. Check-in of individual issues of journals;
5. Payment, reminder, binding, and title history
6. Export / import by using ISO 2709 bibliographic exchange
7. format;
8. Article indexing of journal/book articles;
9. Cataloguing of electronic journals; and
10. Keeps track of the history changes of the journals

The screenshot displays the SOUL 2.0 library management software interface. The window title is "SOUL 2.0 (Logged in As: superuser)". The interface includes a menu bar with options like Acquisition, Catalogue, Circulation, Serials Control, OPAC, Administration, Help, Check for Updates, and Quit. Below the menu bar is a toolbar with icons for Membership, Transaction, ILL, Maintenance, Transaction Menu, Search by Title, Overdue Charges, Book-bank Issue, Reminder, Circulation Group, Stock Verification, Member Login, and Book Transfer.

The main content area shows the "Book/Member Details" for a specific member. The Accession No. is 35318 and the Member Code/Member ID is TSBEME170005. The Member Details section shows the Member ID as T-305, Member Name as SK. HIDAYATULLA SHARIFF, Member Code as TSBEME170005, Current Due as 0, Department as BACHELOR OF TECHNOLOGY, and Category as TEACHING STAFF. A table below shows the issued book details for accession number 35318, including the title "Mechatronics Integ", author "K. P. Ramacha", call number ".621.38", material "Textual Do", issue date "24-09-2020", and reserve date "23-03-2021".

The "Issued / Reserved book Details" section shows the borrowing member's reservation details, including the issued book details for member code TSBEME170005, member name SK. HIDAYATULLA SHARIFF, department BACHELOR OF TECHNOLOGY, and category TEACHING STAFF. The "Privileges Details" section shows a table with columns for Book Name, Accession N, Issue Date, Due Date, and UserCode, listing books like "Thermal En", "Heat and M", and "Mechatronic" with their respective issue and due dates and the user "superuser".

The interface also includes a "Print Issue Slip" button and a vertical toolbar on the right with buttons for Issue [F3], Return [F4], Renewal [F6], Reserve [F7], Lost, Missing, Damage, Withdraw, Reminder, Overdue, Issue (On-Premises), Return (On-Premises), and Exit.

At the bottom of the window, the library name is "AVANTHI - KNOWLEDGE RESOURCE CENTRE, VIZIANAGARAM" and the application version is "2.0.0.14".
