Avanthi Institute of Engineering and Technology

A Guest lecture on **"Data Wrangling"** has been organized by the Department of Computer Science and Engineering, Avanthi Institute of Engineering and Technology, cherukupally on 15-11-2023. Mr. Ashok Suragala, Assistant Professor, CSE JNTU-GV has explained the students about Data Wrangling.Data wrangling ensures data is reliable and complete before professionals analyse it and use it to create insights. Thanks to this process, those insights are based on accurate, high-quality data. Anaconda's "The State of Data Science 2022" report revealed that data scientists spend about 37.75 per cent of their time data wrangling, a percentage that's a sharp reduction from past surveys, which placed the estimate at closer to 80 per cent [1]. Still, industry experts would like to see the amount of time spent on data wrangling reduced, freeing up data scientists and other professionals to devote more time to creating insights.
